Foreword

On account of the scarcity and high cost of labor during the past three years all nurserymen are short on nursery stock. Many have gone out of the business. This has necessarily caused nursery stock to be scarce and high priced. The wholesale price of nursery stock this year is five times as high now as it was five or ten years ago. We regret that nursery stock is higher this year than it was the past season. Many nurserymen are retailing fruit trees this year for \$1.00 to \$2.00 per tree. The prices shown in this price list are 50 to 100 per cent cheaper than the prices now being charged by nearly all nurserymen. We will appreciate your order and will give it our most careful attention. While we do not have in stock now all the varieties of stuff that we formerly propagated, we have a good selection of the leading varieties, and if we cannot furnish exactly what you order we guarantee to give you something that will give you satisfaction.

DESCRIPTIVE CATALOG.

With this price list we are mailing you a copy of our descriptive catalog printed three years ago. You are not to observe it concerning varieties and prices. It is being mailed to you for description of varieties named in this price list and for instructions for planting. Read it for those purposes but be governed by this price list for varieties and price of stock this year.

OUR TERMS

Our terms are cash with the order. We guarantee to give you satisfaction or to refund the cost upon the return of the stuff

ordered. All stock will be strong and healthy and will be of the varieties and size ordered as nearly as possible. It is not always possible to fill orders of exact variety and exact size of trees you order, as our supplies will be continually diminishing. In case we fill your order out of smaller sized trees than quoted we will reduce the price of such trees 20 per cent. Should we be sold out of some of the exact varieties you order we will fill such items with some other similar variety, as good, or refund amount sent for such items. It will not be possible to keep a full line of varieties throughout the season.

EXPRESS CHARGES.

We will pay all express charges on orders amounting to \$10.00 or over. Orders for less than \$10.00 will be sent express charges collect. With each order we will try to send a few plants of some good varieties, complimentary, of equal value with the express charges. If you order shipped by parcel post please add 10 per cent to the amount of your order to cover postage. We make no charge for packing.
